

To minimize the possibility of conflicts, it is important to provide opportunity to others to express their thoughts. This can only happen when we have firm belief that every human being has the capacity to think irrespective of creed, cast, class, race, gender, geography and language. It makes sure inclusion of people in decision making about their life and consequently people get their proper share in the distribution of resources. This is the true spirit of democracy. Baacha Khan and his comrades had devoted their whole life for these values. Principals of the Baacha Khan Schools are guardians of this very paradigm, therefore, it is our prime responsibility to practice these values within academic and social environment and inculcate them in the students of Baacha Khan Schools, said Dr. Khadim Hussain in monthly meeting of the principals of Baacha Khan Schools held at the BKTEF Directorate on May 5, 2015.

The meeting was attended by all principals of Baacha Khan Schools, all accountants of Baacha Khan Schools, senior teachers of Baacha Khan Schools, School Management Department, HR Department, Admin Department, Field Department and Finance Department.

Meeting agenda included security issues, new admission and drop out ratio, culture exhibitions at Baacha Khan Schools, Mashal newsletter, celebration of national and international days, first term examination 2016 and documentation of BK Schools assets and donations.

Agenda points were discussed in detail and decisions were taken accordingly.

Meeting was ended with a vote of thanks from the MD BKTEF Khadim Hussain.
