

“The aim of the Baacha Khan Schools is to contribute to establishing a society which is based on the principals of human dignity. Baacha Khan Schools system is the continuation of Azad Madrassas opened by Khudai Khidmatgars in early twentieth century. BKTEF follows the model of Azad Madrassas which laid the foundation of an education system developed in accordance with indigenous ethos linked with modern knowledge and civilization. Azad Madrassas focused on modern education, indigenous language, indigenous skills and girl’s education. It is a matter of great pleasure that today the education model of Baacha Khan is being realized in the shape of Baacha Khan Schools in Khyber Pakhtunkhwa.
